Instruction Manual

Exciting Features and New Functions

Wi-Fi Functions
(□ 117)

Enjoy the freedom of Wi-Fi* by using convenient Wi-Fi functions such as the following.

- You can use a smartphone as a remote control and record movies from a distance (□ 120).
- You can wirelessly connect the camcorder to your home network and upload your recordings to CANON IMAGE GATEWAY (□ 128). This will allow you to even share your videos on YouTube and Facebook. You can share your videos on YouTube and Facebook also directly from an iOS device (□ 126).
- Enjoying your recordings with family and friends has just become easier because you can use the Web browser on a smartphone or computer to view the camcorder's recordings (□ 125).
- * Wi-Fi is a connection method for devices to connect wirelessly and is certified by the Wi-Fi Alliance.

Baby Mode (□ 60)

Using Baby mode, you will not miss out on baby's precious moments. The camcorder's settings are optimized to capture the beauty of baby's skin. You can also add stamps to the video to keep track of baby's growth. Baby mode is for AVCHD movies only.

AVCHD and MP4 Recording (□ 56)

You can choose to record movies in AVCHD or MP4 format. Record movies in AVCHD and play them back with fantastic picture quality. Alternatively, record movies in MP4 for uploading to the Web and transferring to mobile devices. Depending on the video quality, you can also record at 60 frames per second. With video at 60 frames per second, your videos will achieve a level of realistic movement that will impress your audience.
